THE UNIVERSITY OF  
BRITISH COLUMBIA

NATIONAL CORE FOR NEUROETHICS

## **STUDY ANNOUNCEMENT: Spinal cord injury, stem cells and risk**

Researchers at the University of British Columbia are interested in your views about the potential risks of participating in stem cell research for SCI.

Our goal is to learn about the perspectives and priorities of different stakeholders to inform recruitment, enrolment and participation in trials, now and in the future.

Your participation will involve an interview lasting approximately 15-45 minutes. We do not enrol you in a clinical stem cell study; we are just interested in your views about risks.

We would like to hear from:

➤ **Individuals with SCI**

<http://app.fluidsurveys.com/s/sci-stemcells-risk/>

➤ **Health care professionals involved in the care for individuals with SCI & stem cell researchers**

<http://app.fluidsurveys.com/s/sci-stemcells-risk-professionals/>

If you would like more information about this study, please contact Dr. MarleenEijkholt, Project Lead at 604-827-5224 or email her at [stemcell.sci@neuroethics.ubc.ca](mailto:stemcell.sci@neuroethics.ubc.ca)

Principal Investigators: Dr. Judy Illes, tel: 604.822.0746, e-mail: [jilles@mail.ubc.ca](mailto:jilles@mail.ubc.ca)&Dr. Brian Kwon, tel: 604.875.5858, e-mail: [brian.kwon@vch.ca](mailto:brian.kwon@vch.ca)
